XI. INTRODUCTION TO THIRD PART

This is the third part of a report for the President's Board of Consultants on Foreign Intelligence Activities as requested in a memorandum to the Chairman, United States Intelligence Board, dated 6 January 1960 (USIB-D-3916/1, revised 9 February 1960).

The first part, dated 29 March 1960, listed foreign intelligence publications produced by the community and reported factual data on production costs. The second part, dated 12 July 1960, was a narrative discussion and commentary on the community publishing effort.

The present document is intended to serve, first, as a tabular supplement to the second part and, second, as a revision of the list of periodicals which appeared as Section II (first part).

Many of the items reported as intelligence periodicals on the earlier list proved, upon examination, to be serial revisions of existing bodies of data, operational documents, or internal staff memoranda. Such items have been eliminated from the present list.

The list comprises substantive foreign intelligence publications issued regularly and at least three times a year by a USIB agency or major component thereof. In presenting distribution data for these periodicals we have, for the most part, indicated only the pattern of dissemination outside the producing agency.

The list is organized by geographic area, and within each area by issuing agency in alphabetical order. The publishing agency and component are noted in parentheses, as (Army, USAREUR). Brief comments on content and purpose of each periodical are included.

Section XIII is an alphabetical index of titles.
